

Manage stock, materials and equipment remotely with...

...TotalMobile Materials

Materials is a remote stock management application for TotalMobile which tracks, costs and reorders stock instantly to keep supplies at specific optimum levels.

Features

- Management of Imprest stock in vehicles and stores
- Allows for the instant reordering of stock
- Allocates equipment costs to specific jobs
- Generate replenishment requests automatically
- Integrates with stock management software
- Works as an independent application or in conjunction with other TotalMobile applications for enhanced functionality

Benefits

- Reduce admin time spent managing stock
- Save time by eliminating unnecessary journeys to warehouses
- Removes duplicate data entry
- More efficient re-ordering
- Ability to link to outside suppliers
- Up to the minute management information and stock monitoring

TotalMobile Materials runs on Windows Mobile devices and integrates seamlessly with back office systems and databases - complementing your existing IT infrastructure.
