

Receive and manage appointments and automatically report on progress with...

...TotalMobile Visits

TotalMobile Visits is a work management application designed to manage the workload of any mobile worker. It allows officers to receive jobs and job details; update job status and record completed jobs.

Features

- Issue jobs to remote workers using existing works-order management applications
- Allows remote workers to receive, progress and complete jobs without the need for regular office visits
- Empower workers to organise their own schedules
- Works in conjunction with other TotalMobile applications for enhanced functionality i.e. use with TimeSheets for automatic timesheets completion.

Benefits

- Optimised for case workers
- Allow workers to complete more visits each day
- Reduces travel to save time and gas
- Create a more flexible and responsive service
- Provide up to the minute management information
- Real-time information on staff and task progress

TotalMobile Visits runs on Windows Mobile devices and complements your existing IT infrastructure through seamless integration with back office systems and databases.
