

# Incident Reporting

## TOTALMOBILE - Introduction

TotalMobile is a mobile working system that saves you time, money, gas and paperwork.

It's designed for any business or organization with people who spend some or all of their time on the road.

### Using the appropriate devices they can:

- Schedule appointments and report when they have been kept
- Capture images to show that a job has been done
- Order new supplies
- Fill out official paperwork and file it without returning to headquarters
- Issue invoices when the job's done.

But that's only a tiny snapshot of TotalMobile's capabilities. In a nutshell, it can revolutionize the way you work, increasing profits and revenue and improving efficiency.

TOTALMOBILE

## INCIDENT REPORTING

TotalMobile is the perfect solution for incident reporting - no matter what business you're in.

Graffiti, vandalism, abandoned cars, broken windows, damaged property, even the effects of a hurricane - TotalMobile handles it all.

It's the perfect solution for police and fire departments, property managers, community support teams, street guardians and anyone else who needs to report information quickly and comprehensively.

In the case of public disorder, for example, an incident can be geo-located, photographed and logged in seconds - all on a cell phone or PDA.

You can even schedule workloads for a team of staff when a big event is due to happen.

TotalMobile will also help you keep the public informed during the course of a major incident. All information recorded by staff at the scene can be streamed to any web site of your choice.
